User Manual

Product Details

USB charging port

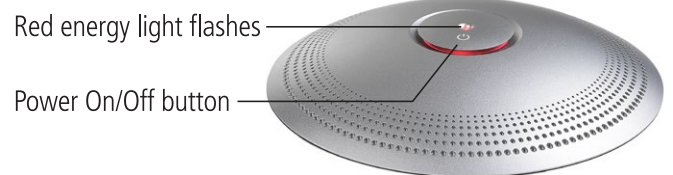

USB charging cable

How to Use

Place "Sweet Dream" anywhere in the bedroom, e.g. on the floor at the foot of the bed

Turn it on, ready for use when the red light starts flashing

* When turning on the device, make sure the Red energy light is on and flashing, indicating the device is in operation.

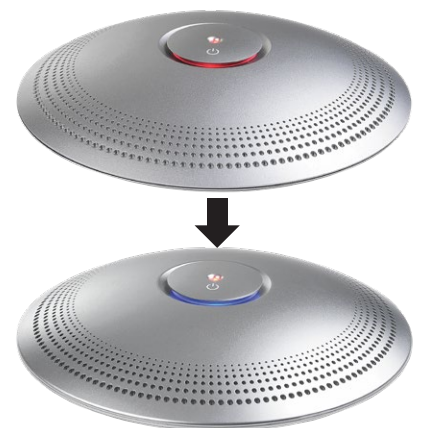

Four types of LED brightness can be adjusted according to personal sleeping habits, namely,

- Lowest Brightness
- Low Brightness
- Medium Brightness
- High Brightness

The button can be pressed repeatedly for brightness selection.

Charging Reminder

A change from red light to blue light indicates that "Sweet Dream" requires charging.

Charging Instructions

To charge the battery, connect the USB charging cable to the USB charging port.

Light indicators:

Blue light - Charging is in progress

Red light - Charging is complete

- It takes about 5 hours to fully charge the battery
- When fully charged, the device can be used continuously for 10 days

Product Maintenance

- Keep the product clean and free from acidic, oily, sticky or other contaminants.
- If the product is contaminated, wipe it clean with a soft, dry cloth.
- When in use, please avoid excessive collision with hard objects.
- Avoid liquids, such as water, from flowing into the device.

Precautions

- Do not put this product in hot, humid or dusty environment, or place it under direct sunlight.
- Do not subject the product to strong impact to avoid malfunction.
- Do not disassemble or modify the product to avoid danger.
- Keep the product out of reach of children.
- Stop using the product in the event of damage or malfunction.

Product Specification

Product Name	: Sweet Dream
Model No.	: SD-100
Battery Voltage	: 3.7V
Battery Current	: 320MA*8
Indicator Frequency	: 0.3Hz
LED Wavelength	: 620-650nm
Diameter	: 160 mm
Height	: 40 mm
Weight	: 871 g

The projected average lifetime of energy light and battery exceeds 10 years.
